PROFESSIONAL EXPERIENCE

United States Air Force | Various Locations

2003 – Present

Software Product Manager (2020 – Present)

Lead mentored and trained 36 Airmen in 3 sections, 4 Advanced Force Commanders (AFC)s, and managed Air Mobility Command (AMC)'s sole Software Factory to create C2 weapons system in support of DoD and Air Force missions.

- Advised fleet and company commander, guided 46 personnel mission critical appointment and development in support of USTRANCOM, Headquarters, AMC, and 12 mission partners
- Oversaw the repairing of 2 global flightline management applications, fixed encryption errors, and trained 3 Airmen while restoring \$384M logistic assets for 70K personnel
- Controlled \$5M in resources directly supported AMC/A6, gathered and directed project requirements, and implemented solutions in support of 134K personnel
- Piloted a 9-member team, curated 1.4K requests for AMC aircraft- synchronized global mission and slashed excess airlifts by 20% resulting in a saving of \$1M

Software Development Team (2019 – 2020)

Led and trained 11 airmen and oversaw the direct updates of 10 legacy weapons systems directly for headquarters AMC while supporting 212K global users across DoD.

- Advised a 51-member fleet team, organized mission requirements, coordinated functional testing, and delivered software solutions to enhance DoD missions
- Augmented AMC Inspector General (IG) inspection, coordinated over 600 Air Base Group (ABG) Unit Effectiveness Inspection(UEI) for 16 programs within 5 days, certified mission effective to support 350 squadrons for 3.3K sorties
- Overhaul fleet software test process, decreased false security findings by 75%, saving 600 man0 hours and \$53K administration cost
- Coordinated the fleet 1st remote capabilities for 51 personnel, piloted a 5- member platform upgrade, fueled 3 application releases and virtual inspection system in a pandemic

Business Application Support Craftsman (2015 – 2017)

Designed and maintained NATO C3 Staff classified and unclassified network web portal and managed 3K local and remote users.

- Resolved trouble tickets and analyzed systems malfunctions, logged lessons learned, and ensured readiness of updated configurations
- Managed the direct system installations and supported daily operations of a \$2M multi-nations network, liaises with 3 agencies to resolve IT issues
- Developed new security certification process, averted INFOSEC lapse 2 weeks ahead of schedule, assured access for 700 international users
- Liaised software vulnerability assessment, identified 2 critical security flaws, fixed a \$75K system sporting a worldwide NATO data link
- Led a joint team of 7, delivered 960K lbs. of mail, and reduce time by 50%
- Spearheaded the e-mail migration, trained 30 on procedures and eliminated 40GB of old data, readiness 80 international personnel for headquarters move

MATTHEW DREVON | PG. 2

Military Postal Supervisor (2013 – 2015)

Provided official mail (OM) mobile distribution services at 18 locations servicing bases 42 squadrons and tenant units. Handled in/outbound mail shipment, received, sorted, delivered, and forwarded mail for 15K RAF Laken heath patrons.

- Managed package barcode scan program, scanned 500 parcels, and ensured real-time tracking with a 94% capture rate- the highest in the command
- Monitored AMC mail dispatches, litigated customs issues, processed red tape dispatched 248 pieced /3K lbs. via a military flight
- Generated 1.4K payment documents, processed 950K lbs. of outbound mail, allocated \$569K in DoD funds to 3 airlines
- Developed customer address database for new AOP, tracked 10 units with 198 PO boxes in AOR resulting in expedited 1.2K lbs. of mail
- Processed 250 final parcel notices, and delivered 300 unclaimed packages resulting in clearing a 3-month backlog and creating 20% more shelf space
- Revamped OC receptacle program, reviewed 7K mailboxes weekly and closed 1K inactive boxes, and surged the availability by 28%

EDUCATION

Bachelor of Science (B.S.) Computer Science | Expected December 2023

Associate of Science (A.S.) Computer Science | Community College of the Air Force | 2019

Specialized Military Training:

Advanced Leadership Course

TECHNICAL COMPETENCIES

Software: Microsoft Office Suite 365

Operating Systems: Mac / Microsoft Windows
